Profile of the Company:

Having more than 30 years of experience behind, Negar Taymaz Food Processing Machine-building Co. has managed to take quantum leaps towards realization of the country's self-sufficiency by employing the latest technology of the world, establishing close business relations with leading domestic and foreign companies, and making best use of the potentials of experienced experts towards designing and building machines and production lines for tomato paste, fruit puree, and canned food production, and providing consulting service to customers. The company has ISO 9001 and CE certificates from Italy, and has been awarded Golden Award for Quality and Business Prestige by Otherways Management and Consulting Association from Paris, France.

We are also proud that we have managed to prevent waste of raw materials and products and also unnecessary stoppages of production line. Given the existing competition among manufacturers in the same line of activity, this has contributed much to the company's success.

The scope of the main activities of the company may be outlined as follows:

1. Manufacturing tomato paste and canned food production lines
2. Manufacturing fruit puree production lines (for stone and non-stone fruits)
3. Raising the production capacity and troubleshooting of production lines
4. Improving the quality of products, and minimizing contamination
5. Preparing production plans and providing the best consulting services
6. Procurement of brand new and used machinery needed

Shrink Pack 13

1 Receiving & Washing

Technical Specifications:

- 1- Machine Capacity : 500 to 1500 tons/24h
- 2- Platform in S.S.

2 Sorting Table Machine

Technical Specifications:

- 1- Machine Dimensions: a*b*h=770cm*270cm*280cm
(Width With Sorting = 270cm , Width Without Sorting Station = 160cm)
- 2- Machine Capacity : 500 tons/24h
- 3- Platform in S.S.

Technical Specifications:

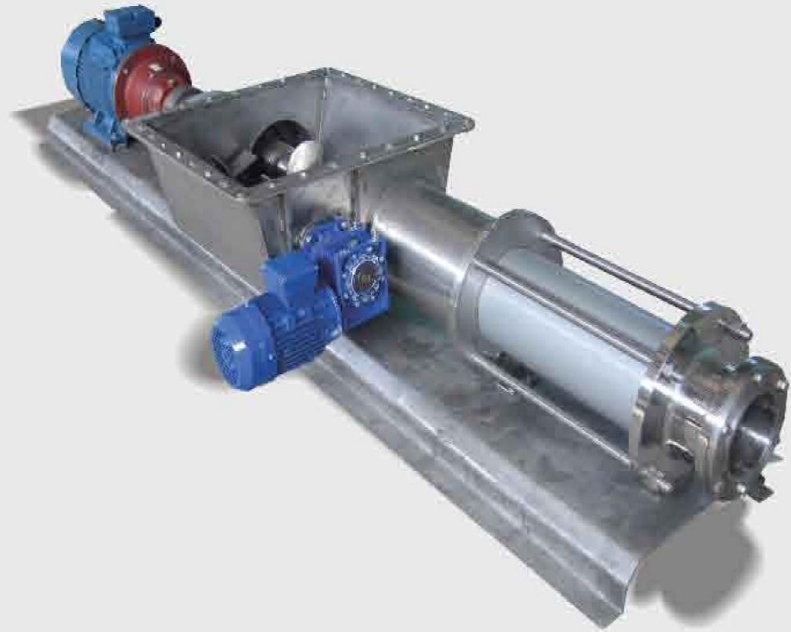

- 1- Machine Dimensions: a*b*h=835cm*255cm*260cm
(Width With Sorting = 255cm , Width Without Sorting Station = 145cm)
- 2- Machine Capacity : 500 tons/24h
- 3- Platform in S.S.

3 Mono Pump Machine

Technical Specifications:

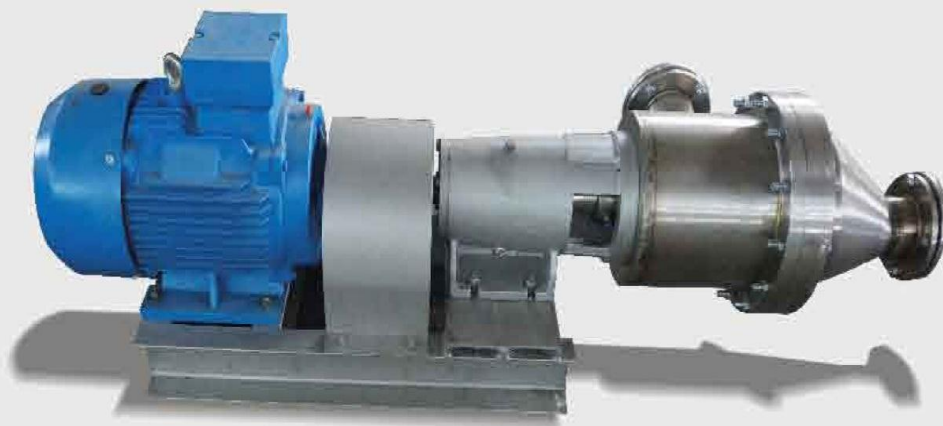

- 1- Machine Capacity : 30 tons/h
- 2- For High Viscose Material
- 3- Feeding With Helix
- 4- Platform in S.S. or Cast Iron

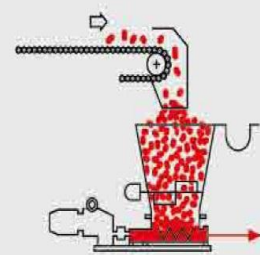

Crusher Machine

Technical Specifications:

- 1- Machine Capacity : 30 tons/h
- 2- Platform in S.S. or Cast Iron

ROLLER SORTING BELT

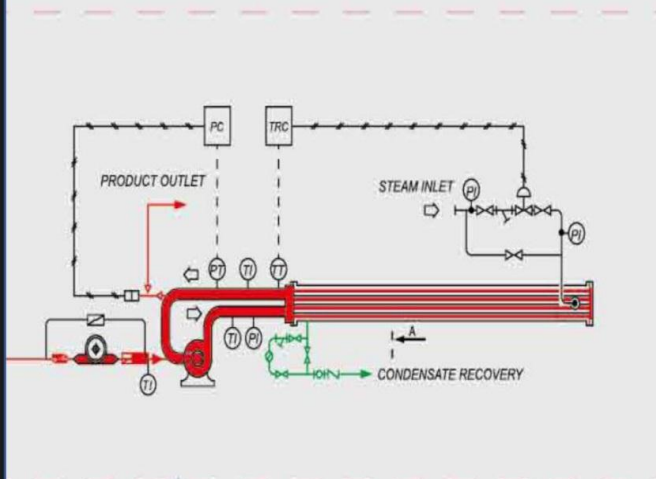

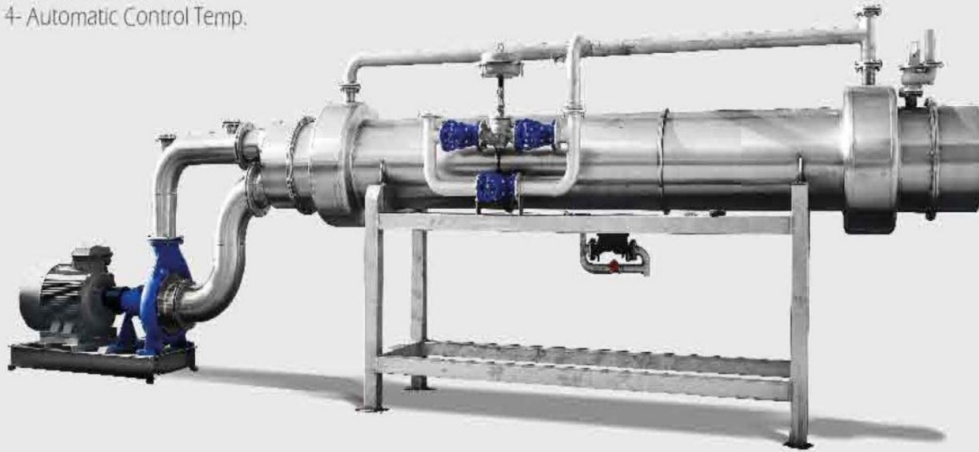

4 Hot & Cold Break Machine

NEGAR
TAYMAZ

www.NegarTaymaz.com

Technical Specifications:

- 1- Machine Dimensions: $a*b*h=1038\text{cm}*153\text{cm}*290\text{cm}$
- 2- Machine Capacity : 500-800 tons/24h
- 3- Platform in Cast Iron
- 4- Automatic Control Temp.

Technical Specifications:

- 1- Machine Dimensions: $a*b*h=620\text{cm}*100\text{cm}*200\text{cm}$
- 2- Machine Capacity : 300 & 500 tons/24h
- 3- Automatic Temp. Adjustment

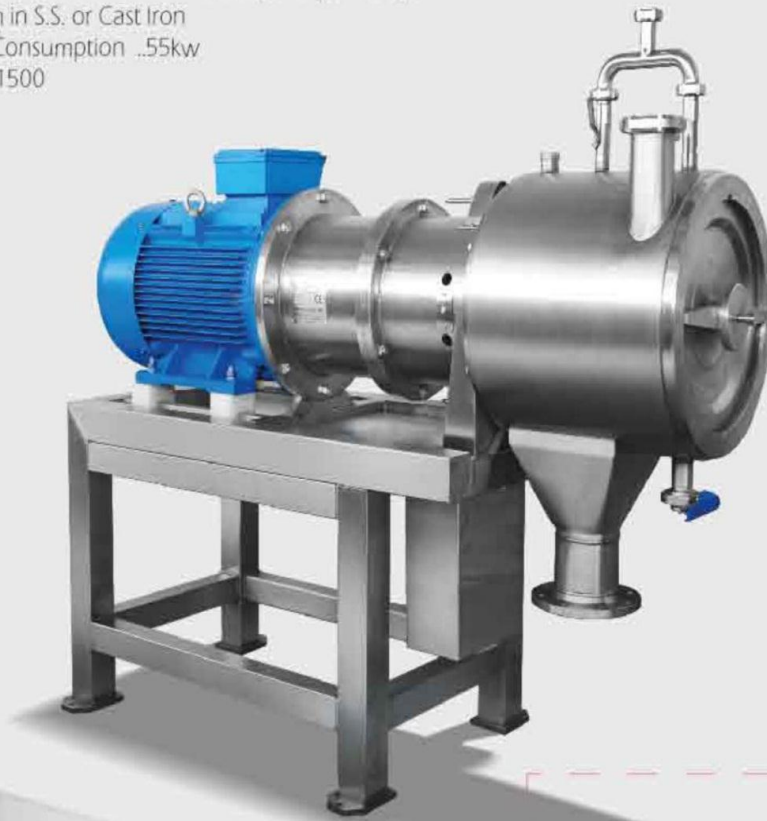

5 Pulper & Finisher (1 Stage)

Model HX60/NT

Technical Specifications:

- 1- Machine Dimensions: a*b*h=250cm*78cm*175cm
- 2- Platform in S.S. or Cast Iron
- 3- Power Consumption ..55kw
- 4- R.P.M.: 1500

Pulper & Finisher Production Hall

6 Juice Tank

Technical Specifications:

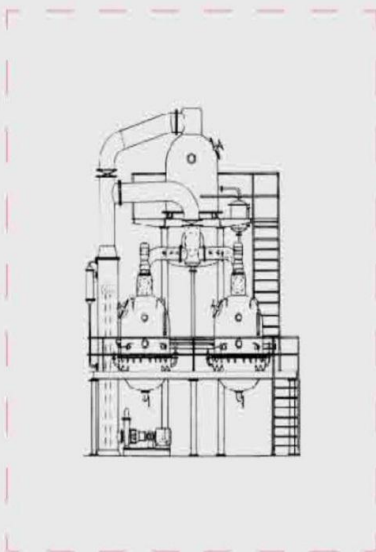

- 1-Capacity: 2000 lit to up
- 2-Sight Glass
- 3-C.I.P
- 4-Manhole

Batch System Evaporator

Technical Specifications:

- 1- Machine Dimensions: $a*b*h=500\text{cm}*400\text{cm}*500\text{cm}$
- 2- Machine Capacity: 50 tons/24h
- 3- Platform in Cast Iron

7 Continuous Double Effect Evaporator

Double Effect

Technical Specifications:

- 1- Machine Dimensions: $a*b*h=940\text{cm}*550\text{cm}*1100\text{cm}$
- 2- Machine Capacity: 300 tons/24h
- 3- Platform in Cast Iron
- 4- Automatic Monitoring

7 Continuous Evaporator

Double Effect

Technical Specifications:

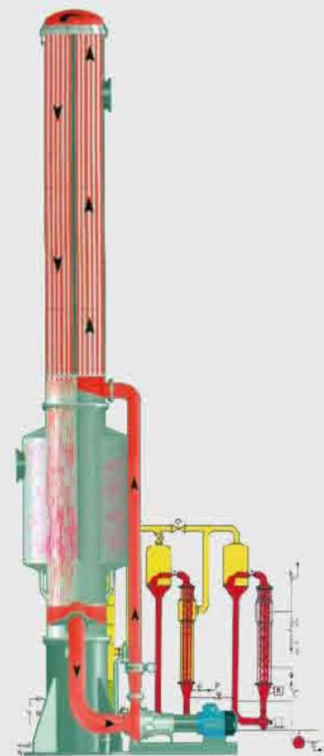

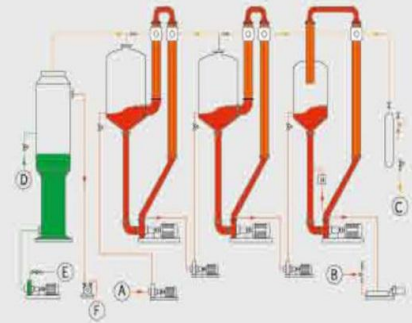

- 1- Machine Dimensions: a*b*h=1035cm*644cm*1240cm
- 2- Machine Capacity: 500 tons/24h
- 3- Platform in Cast Iron
- 4- Monitoring Automatic

Triple Effect

Technical Specifications:

- 1- Machine Dimensions: a*b*h=1280cm*400cm*1300cm
- 2- Machine Capacity : 500 tons/24h
- 3- Platform in Cast Iron
- 4- Automatic Monitoring

Triple Effect

Technical Specifications:

- 1- Machine Dimensions: a*b*h=1475cm* 655cm* 1150cm
- 2- Machine Capacity: 600tons/24h
- 3- Platform in Cast Iron
- 4- Monitoring Automatic

Triple Effect

Technical Specifications:

- 1- Machine Dimensions: a*b*h=1475cm* 655cm* 1150cm
- 2- Machine Capacity: 800tons/24h
- 3- Platform in Cast Iron
- 4- Monitoring Automatic

8 Tomato Paste Salting Tank

Technical Specifications:

- 1- Machine Dimensions: Diameter: 95cm
Height: 100 to 150 (non-column)
- 2- Power Consumption: ...2.2kw

Mono Pump

Technical Specifications:

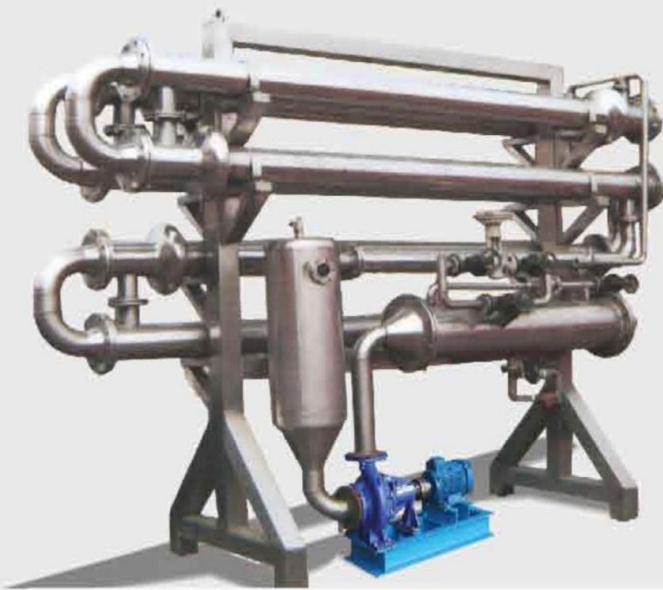

- 1- Model P50A : 7 tons/h
Model P60A2S : 10 tons/h
- 2- For High Viscose Produce
- 3- Feeding With Helix
- 4- With S.S. Or Cast Iron Platform

9 Tube-In-Tube Pasteurizer Machine

Technical Specifications:

- 1- Machine Dimensions: a*b*h=360cm*103cm*260cm
- 2- Machine Capacity : 6 tons/h
- 3- With S.S. Platform
- 4- Automatic Monitoring

Tubular Pasteurizer Machine

Technical Specifications:

- 1- Machine Dimensions:
a*b*h=330cm*103cm*240cm
- 2- Machine Capacity : 5 tons/h
- 3- With S.S. Platform
- 4- Automatic Temp. Control

10 Filler

Technical Specifications:

- 1- 8&12 Head Rotary Piston Filler
- 2- Machine Output 8Head: 60 to 150 Cans/min
12Head: 80 to 210 Cans/min
- 3- Applicable for 75-1000 gr cans

Filler Machine Production Hal

II 4 Head Seamer

NEGAR
TAYMAZ

www.NegarTaymaz.com

Technical Specifications:

- 1- Machine Dimensions: L*W*H=200cm*90cm*170cm
- 2- Machine Maximum Output : 140 Cans/min
- 3- Suitable For 75-1000 gr Cans
- 4- Power Consumption ..3kw
- 5- R.P.M. : 1450

4Head Seamer

Technical Specifications:

- 1- Machine Dimensions: L*W*H=210cm*120cm*170cm
- 2- Machine Output: 40 to 160 Cans/min
- 3- Suitable For 75-1000 gr Cans
- 4- Power Consumption ..3kw
- 5- R.P.M. : 1850

12 Tunnel Pasteurizer

Technical Specifications:

- 1- Machine Dimensions: L*W*H=(1800-2200)cm*200cm*150cm
- 2- Machine Capacity : 4-5 tons/h
- 3- Three Zones (Hot Water , Warm Water , Cool Water)
- 4- Machine in S.S or Cast Iron
- 5- Automatic Temp. Control

13 Shrink Pack

NEGAR
TAYMAZ

www.NegarTaymaz.com

Technical Specifications:

- 1- Machine Dimensions:
L*W*H= 400cm*100cm*180cm
- 2- Machine Capacity :
800 box/h
- 3- Full Automatic System
